General Fund Bills – \$6,020.60      State Fund – \$0

PERSONS TO BE HEARD – There was a lengthy discussion about the naming of private lanes. The Supervisors' plan was to name private lanes where multiple driveways have their access point to that lane rather than directly to a township road. The reason for the proposed address change is that many properties on private lanes currently have addresses that don't meet 911 addressing requirements. To assure the property can be quickly located by 911 responders in an emergency, those addresses need updated. However, several residents expressed a desire to keep their current addresses or at least not switch to a private lane address vs. a primary road address. Several suggestions were made but the one most likely to meet 911 requirements involves using a Lot number approach on lanes where some other Lot numbers already exist. The County and the Post Office will be contacted to see if this is acceptable to them.

CORRESPONDENCE The Conservation District sent an update about the issues with a timber harvest on the Back Rd.
